PROACT PHARMACY BENEFIT MANAGEMENT

Advantage Formulary

January 2027 – Weight Loss Excluded

The ProAct Advantage Formulary references the most commonly prescribed medications available to treat a variety of conditions. This is not an all-inclusive list as there may be prescription drugs that do not appear.

PLEASE NOTE: Brand-name drugs may move to non-formulary status if a generic version becomes available during the year. Not all drugs listed may be covered by your prescription plan, please review your summary plan description for a list of exclusions. Grandfathering will not be provided for any excluded medications.

For the most current listing of covered medications or if you have questions, please visit **www.proactrx.com** or call the ProAct Help Desk at **1-877-635-9545**.

Generic Medications are listed in lower case letters.
Example: ibuprofen

Brand Medications are listed in UPPER CASE LETTERS.
Example: AJOVY

Tier Coverage status of a medication

SP Specialty Medication

PA Prior Authorization required

ST Medication requires trial and failure of at least one alternative covered product prior to coverage.

QL A limitation on the amount of medication that may be dispensed in a period.
